

# The whole Jetking website, in boxes.

Low-fidelity layouts of every public page, the shared chrome and the staff admin, checked against the running site on 21 September 2026. Boxes are sections, hatched panels are images, bars are text. Switch to **Mobile** above to see the same wireframes reflow at phone width.

# Shared chrome & overlays

every public page

What surrounds every page: the header and its menu drawer, the footer, and the floating helpers.

NOTES

- Header: **Log in** button from tablet up; on phones it moves into the drawer. Signed in, it becomes an initial linking to /account.
- The header turns solid (not translucent) once you scroll.
- The homepage has no footer; /admin and /chatbot have neither header nor footer.
- Guide panel is non-modal (you can keep reading); the exit-intent popup shows once per session (mouse leaves the top, or 45s on touch).
- Footer city links open the centres directory filtered to that city.
- The footer's bottom row links the three legal pages (Privacy Policy, Terms & Conditions, Enrollment Terms).
- The footer's Company column ends with **Sitemap** → /sitemap, a full human-readable index of pages, courses, centres and posts.

India's No.1 Technology Training Institute

Home / One screen, one question — “What brings you here?” — that routes each visitor to the page written for them.

NOTES

- No footer and no scrolling sections: the hero fills the viewport (min-h-dvh).
- Three photo hexes are the whole navigation: Student → /student, Working Professional → /professional, Just Browsing → /explore.
- The **Enquire Now** button opens a modal (name, mobile, state, centre) instead of leaving the page; it posts as a home-hero enquiry.
- “Welcome back” shows only to returning, already-classified visitors.
- The right-edge quick actions sit inline under 1200px and float at mid-height from 1200px.

Page 3

Student

/student

Convince a student, then walk them through a five-step guided journey that ends in a counselling booking.

NOTES

- The guided journey panel appears only once opened (“Find my career path” or the #start - journey link) — it is not in the first render.
- Steps: Discover → Courses → Save → Roadmap → Counsel. The Save step is skipped for visitors we already know.
- Recommendations are matched to the education level and interest picked in step 1; the first card is flagged “Best match”.
- Login is never required; the phone number in step 3 is optional (“Skip for now”).

India's No.1 Technology Training Institute

**Working professional** /professional

Speak to someone with a job: short programmes, flexible batches, a visible salary outcome.

## NOTES

- The hero is dark; a rounded light panel rides up over it. The hero has one primary action — the “Watch how Jetking shapes careers” video button was removed.
- Hiring partners are the logos Jetking already publishes on [jetking.com](#) (12), on white tiles in both themes. They sit in their own band below the success stories and scroll on their own; a Pause button, hover and keyboard focus all stop them, and reduced motion shows a static grid.
- The note under the logos states that placements are subject to recruitment norms.
- Quick actions float at the right edge from 1200px.

## Our Hiring Partners

Recruiters featured on [jetking.com](https://jetking.com). Placements are subject to recruitment norms — Jetking does not guarantee placement in any organisation.

India's No.1 Technology Training Institute

Recruit centre partners: prove the brand, show what they get, and end at a single enquiry form.

NOTES

- Both hero buttons jump to the form (#enquire); the launch plan and opportunity sections have their own anchors.
- The FAQ accordion renders only when franchise-topic FAQs exist.
- Form: name, mobile, email, preferred location, investment capacity (Upto 50 L / 1 Cr / 3 Cr) → “Get Franchise Details”; the team replies within 24 hours.
- A page-level contact strip (manager number, email, URL) sits just above the global footer.

India's No.1 Technology Training Institute

The long, low-pressure page: everything Jetking is, with no form to fill and one optional note.

NOTES

The optional quick note (#enquire) is the only form; visitors can leave without touching it.

Sections after “About” are proof: awards, ten reasons, university tie-ups, certifications, alumni employers, placement partners, affiliations.

The placement-partners collage carries the disclaimer that Jetking does not guarantee placement in those organisations.

The blog strip renders only when posts exist. This route is not yet listed in /sitemap.xml.

Page 12

[illegible]

A horizontal banner with a background of diagonal grey and white stripes. In the center, the text "partners collage" is written in a light grey, lowercase, sans-serif font. Below the banner, there is a row of four rounded rectangular buttons. From left to right, they are labeled "Skill India", "NSDC", "Red Hat", and "Delhi Capitals".

Courses

/courses

The catalogue. Programmes come first, filters sit beside them, and a lead form lives in the banner.

NOTES

- Banner lead form (name, mobile, state → centre) appears from 1024px up; posts to /api/enquiry as courses-hero-form.
- Every course card is in the server-rendered HTML; filters only toggle visibility.
- The persona-adaptive “Suggested for you” nudge sits **below** the list (parent, student, professional, franchise variants).
- Sidebar filter groups: Level, Technology, Duration.

India's No.1 Technology Training Institute

## Centres directory

Find a centre by state and city. City pages no longer exist: /centres/pune redirects to this page filtered to Pune.

## NOTES

- Search box in the banner drives the same filter as the sidebar (?q=).
- Results are State → City → Centre accordions; the first state opens on desktop.
- Sidebar filter headers show the applied choice as a chip (e.g. State: Maharashtra).
- Lead form in the banner from 1024px up.

Centre detail

/centres/[slug]

One centre: what it teaches, who teaches it, who got placed, and how to get there.

NOTES

- Single-centre cities (Durg, Indore...) resolve here, not to a city page.
- Sticky “Visit this centre” panel: address, **Open in Google Maps**, phone, helpline, email, Enquire.
- Card corners are rounded like every other page; avatars are circles.
- Breadcrumb: Home / Centres / Centre.

India's No.1 Technology Training Institute

NOTES

- The banner’s search box scrolls to the index and stays in sync with the toolbar search.
- The topic filter is a dropdown (replaced the row of category tabs).
- Cards can be re-ranked by visitor type, but nothing is ever removed.
- The newest post carries a “Latest” badge; the list paginates.

Page 19

A single article in a reading-width column, with a persona-aware suggestion and related reading.

NOTES

- Body blocks: paragraphs, headings, lists, quotes with attribution and captioned figures.
- If an article body is empty a “being refreshed” message is shown instead of a blank page.
- The suggestion slot reserves its space, so nothing shifts when it fills in.
- Related posts appear only when there are any.

Page 20

Course detail /courses/[slug]

Everything a buyer needs about one programme, with a sticky “At a glance” card that keeps the enquiry one tap away.

NOTES

- Sections render only when the data exists (highlights, journey, tools, certifications, careers).
- The FAQ block combines the course’s own questions with the site-wide fees and placement questions; viewing it is what feeds the fee-depth personalisation signal.
- The “Power of Three” figures (certificate, degree, sample offer letter) depend on which the course has.
- Similar programmes are same-level courses.

## Placements

/placements

What placement support actually covers — and what it does not promise.

## NOTES

- Recruiter logos scroll on their own; a Pause button, hover and focus all stop it; reduced motion shows a static grid.
- Sample offer letters are illustrative (placeholder company, SAMPLE watermark). Click a letter to open the gallery with prev/next and thumbnails.
- Testimonial slider auto-rotates with Pause / Prev / Next (no dots); the company sits under the person's role.
- The fees and placement FAQs now live on each course page.

Jetking website wireframes

Page 28

[/privacy-policy](#) · [/terms-conditions](#) · [/enrollment-terms-and-conditions](#)

NOTES

- Copied from the live jetking.com pages at the same paths, so no redirects are needed. Wording is as published; only layout was cleaned up.
- **Privacy Policy** and **Terms** are headings and paragraphs. **Enrollment Terms** (the student passport) also has lettered lists, real tables for grades and exam schema, and images for syllabus tables and forms.
- The panel follows the site container width, like every other page. There is no “on this page” list.
- Linked from the footer’s bottom row (Privacy Policy · Terms & Conditions · Enrollment Terms) and listed in sitemap.xml.
- The live pages predate accounts and saved chats, so the text is due a legal review before launch.

---

Linking website wireframes

Page 29

# Investor information

/investors

Regulation 46 and 62 (SEBI LODR) disclosures, laid out like NIIT’s page with Jetking’s own documents.

NOTES

- 504 documents in 20 sections, synced from jetking.com/investors with `npm run sync:investors`.
- Native <details> accordions: server-rendered, no JavaScript needed, every document in the HTML.
- Lists over 12 rows scroll inside their panel (keyboard-focusable).
- Company Details is open by default; contacts (grievance officer, registrar, KMP) are typed by hand.

## Account

/account

One optional account for the website and Jetking AI: details, location and saved chats.

## NOTES

- Log in / Sign up dialog opens from the header, the drawer, the enquiry form or the chatbot (which greets guests with it).
- Sign up asks name, mobile, state, city, optional centre, email, password.
- Signed-in effects: enquiry forms pre-filled; chatbot greets by name and answers “Nearest centre” for the saved city.
- noindex.

# Jetking AI (chatbot) /chatbot

A full-screen assistant with its own shell: guided menus on the left, the conversation in the middle, quick info on demand.

NOTES

- Guests get the Log in / Sign up dialog on arrival (dismissible); signed-in chats autosave and reopen from “Recent chats”.
- Answers come from the local knowledge base; unanswered questions are refused, never invented.
- Signed in with a saved city, the “Nearest centre” chip answers straight away for that city.
- A slim “Log in to save this chat” prompt shows above the composer for guests.

## Staff admin panel `/admin`

How staff run the site: edit content, work the lead board, manage people.

## NOTES

- Roles: **admin** (everything), **editor** (content + leads), **centre staff** (leads for their city only).
- Every content save is published immediately and re-indexes the Guide; changes are recorded in the audit log.
- Leads: the board needs `DATABASE_URL`; website enquiries currently go to the CRM endpoint or the server log, not this board.
- Login is per user when a database is configured, otherwise one shared password.
